Data Access and Provenance
This document lists all datasets used in the thesis analysis. For each dataset, the public webpage source, the access date, and notes on processing are provided. Raw scraped JSON/CSV files are **not redistributed** in this repository due to licensing and terms of service restrictions. Only references and processing logic are shared.

Dataset 1

Dataset: Token Terminal – Stablecoins & Tokenized RWAs

Source:
https://tokenterminal.com/explorer/studio/dashboards/beb6623c-1f2e-4607-aa51-617b761605e9
Accessed: 17 August 2025
Note: Data was exported via JSON inspection and converted to CSV for analysis. The processed CSV is not redistributed here due to licensing restrictions.

Dataset 2

Dataset: CoinGecko – TerraUSD & Stablecoins (UST de-peg chart)

Source: https://www.coingecko.com/en/coins/terrausd/historical_data
Accessed: 16 August 2025
Note: Data retrieved from public historical chart and converted to CSV. Used in Figure 1 (TerraUSD chart). CSV not redistributed.

Dataset 3

Dataset: CoinGecko – Tokenized Treasuries & Stablecoins

Source: https://www.coingecko.com/
Accessed: [date]
Note: Data retrieved through public charts and JSON API inspection. Used in Figure 2 and related tables. Processed CSV not redistributed.

Dataset 4

Dataset: RWA.xyz – Tokenized Real-World Assets

Source: https://app.rwa.xyz/
Accessed: 22 August 2025
Note: Data collected from dashboard views and converted to CSV. Used in tokenization analysis. CSV not redistributed.

Dataset 5

Dataset: Blockchain.com Explorer – Bitcoin Mining (Pool Revenues & Hashrate)

Source: https://www.blockchain.com/explorer/charts#mining%20information
Accessed: 13 August 2025
Note: Data exported from mining information pages. Converted to CSV for Table 2. CSV not redistributed.

Dataset 6

Dataset: DeFiLlama – Protocol Dashboards

Sources:
- DEXs: https://defillama.com/dexs
- CEXs: https://defillama.com/cexs
- Perpetuals: https://defillama.com/perps
- Oracles: https://defillama.com/oracles
- Chains: https://defillama.com/chains
- Hacks: https://defillama.com/hacks
Accessed: 20–23 August 2025
Note: Data accessed via public dashboards and JSON structures. Converted into CSV for Tables 6–11 and Figures 3–5. CSV not redistributed.

Dataset 7

Dataset: ETF & Corporate Bitcoin Holdings (ETFs, Public Companies)

Source: https://intel.arkm.com/tags/treasury-company?params=bitcoin
Accessed: 23 August 2025
Note: Underlying raw data not redistributed. Used in Tables 16–17.

Dataset 8

Dataset: Interview Coding & Thematic Analysis

Source: Author-generated from encrypted interview transcripts
Accessed: May–July 2025
Note: Processed CSV files (structural coding) stored privately. Encrypted transcript (Interviews-Transcripts.docx.gpg) included; decryption requires passphrase. Public repo includes only coding schema and mapping (Table 21–22).
Reminder: All datasets are properly cited in the thesis references (APA 7th edition). This document serves as a reproducibility guide without redistributing restricted data.
